尊敬的各位专家、代表：
我是国际爱国公约组织代表，倡导“爱国不能损害他国利益”。致力于推动《国际爱国公约》和《国家发展权审议》的国家参与和实践。
40年前，各国共同确认发展权是一项不可剥夺的人权，标志着国际社会对发展的深刻认知。然而，一些国家以“发展优先”为名，损害他国利益或忽视国内弱势群体权益，导致发展失衡、贫富分化。这警示我们，发展权的实现必须以平等、合作、互利、共赢和可持续为原则，避免陷入“以邻为壑”的零和博弈。
在实践中，我们以“国际爱国公约”为核心，积极探索国家发展权在实现人权过程的促进作用，推动国家发展权的研究与实践。我们一方面通过IPPO对国家发展权的审议与多边对话，监督各国遵守国际法、尊重他国发展权，构建国家发展权审议机制。如2025年IPPO论坛发布的《美国国家发展权报告》，揭露了美国对其他国家发展权的侵害。另一方面，我们鼓励IPPO成员在本国成立国际爱国公约组织的国别机构，推广《国际爱国公约》倡议与实践，助力国家发展权审议，实现包容性发展。
关于纪念宣言40周年，我们建议：呼吁各国参与并签署《国际爱国公约》，承诺不以损害他国利益为代价的国家发展；定期举办国家发展权论坛，深化国家发展权促进人权保障共识与协作；设立联合国国家发展权审议机构，开展国家发展权审议，定期发布国家发展权报告，公开曝光违反国际义务的国家行为。
40年前，《发展权利宣言》为我们指明方向；40年后，我们以国家发展权审议践行宣言精神。我们重申：发展权不是大国博弈的工具，而是国际合作的基础，国际爱国公约组织愿与联合国机构、各国政府、国际机构共同携手，推动国家发展权审议与实践，共建公平、公正、和谐、可持续的美好未来。
谢谢大家！

Speech at the Relevant Meeting on the Right to Development

Distinguished experts and representatives,
I am the representative of the International Patriotic Pact Organization (IPPO), advocating the principle of "love one’s own country without harming other nations’ interests." We are dedicated to promoting national participation and practical implementation of the International Patriotic Pact and the Review of Nation’s Right to Development.
Forty years ago, countries jointly affirmed that the right to development is an inalienable human right, marking a profound understanding of development by the international community. However, some countries, under the pretext of "development first," have undermined the interests of other countries or neglected the rights and interests of domestic vulnerable groups, resulting in development imbalances and widening wealth gaps. This serves as a stark warning that the realization of the right to development must adhere to the principles of equality, cooperation, mutual benefit, win-win outcomes, and sustainability, and avoid falling into the zero-sum game of "beggaring thy neighbor."
In practice, with the International Patriotic Pact as our core, we have actively explored the role of nation’s rights to development in promoting human rights and advanced research and practice in this field. On the one hand, through the International Patriotic Pact Organization, we conduct reviews and multilateral dialogues on nation’s rights to development, supervising countries' compliance with international law and respect for the right to development of other nations, thereby constructing a review mechanism for nation’s rights to development. For instance, the 2025 IPPO Forum released the Report on the Nation’s Rights to Development of the United States, exposing the infringements on the right to development of other countries by the US. On the other hand, we encourage IPPO members to establish national branches of the International Patriotic Pact organization in their respective countries, promoting the initiatives and practices of the International Patriotic Pact, facilitating the review of nation’s right to development, and achieving inclusive development.
Regarding the commemoration of the 40th anniversary of the Declaration, we make the following suggestions: calling on countries to participate in and sign the International Patriotic Pact, committing to national development that does not come at the expense of other countries' interests; regularly hosting forums on nation’s rights to development to deepen consensus and collaboration on promoting

human rights protection through nation’s rights to development; establishing a United Nations review body for nation’s rights to development to conduct reviews, regularly release reports on nation’s rights to development, and publicly expose national behaviors that violate international obligations.

Forty years ago, the Declaration on the Right to Development pointed the way forward for us; forty years later, we are putting its spirit into practice through the review of nation’s rights to development. We reiterate that the right to development is not a tool for major power rivalry but the foundation of international cooperation. The International Patriotic Pact organization is willing to work hand in hand with United Nations agencies, national governments, and international institutions to advance the review and practice of nation’s rights to development, jointly building a fair, just, harmonious, and sustainable future.

Thank you all!
