

GROUP OF HUMAN RIGHTS EXPERTS ON NICARAGUA

WHO ARE WE?

Jan-Michael Simon
Chair

Ariela Peralta
Distéfano

Reed Brody

We are three independent experts that investigate human rights violations committed in Nicaragua since 2018.

The Group (GRHEN) was established by the UN Human Rights Council in March 2022.

We work independently and without pay, supported by a team of specialized UN personnel.

WHAT DO WE DO?

We investigate all alleged **human rights violations** committed in Nicaragua since April 2018. When possible, we identify the individuals allegedly responsible for these violations.

We also investigate **transnational violations** (violations sponsored by the State of Nicaragua whose effects extend beyond the country's borders).

We present our findings, conclusions and recommendations in **public reports**.

These reports are available together with all the documents we have published at:

www.ohchr.org/ghrenicaragua

HOW DO WE WORK?

- We **gather** and **verify information** by conducting interviews and collecting documents.
- We carefully **analyse** and **corroborate** all information and documents gathered before reaching conclusions.
- We **protect the identity** of all victims, witnesses and other sources and guarantee the **confidentiality** of all documentation received.
- We **present** and **promote** our **recommendations** to States and other stakeholders.

HOW TO CONTACT THE GROUP?

If you have information on possible human rights violations committed in Nicaragua since April 2018, **you can contact the Group confidentially** at:

GHREN@UN.ORG

All information received and all sources are kept strictly confidential.
