[1] EMRIP was established by the Human Rights Council as a subsidiary body of the Council through its resolution 6/36 of 14 December 2007. Its mandate was subsequently amended by the Council in its resolution 33/25 of 30 September 2016. Data on the regional representation of members is not included since appointments to EMRIP are based on belonging to one of the seven Indigenous sociocultural regions, as defined in Human Rights Council resolution 33/25 of 30 September 2016.

[2] Regional disaggregation differs across periods due to changes in the mandate and composition of EMRIP. EMRIP was established by the Human Rights Council as a subsidiary body through resolution 6/36 (2007) and its mandate was amended by resolution 33/25 (2016). This amendment shifted EMRIP from representation based on **five UN regions** (2007–2016) to **seven Indigenous sociocultural regions** (2017–present). Accordingly, past mandate holders are presented in two separate tables. This table includes all mandate holders appointed under resolution 33/25. There is overlap with the previous table (2008-2016) since a number of mandate holders were appointed prior to the shift in regional representation and remained in office after 2017.
