To whom it may concern;

Dear Madam/Sir,

The plant of our company Italek Ltd. is located in the industrial area of Alfei Menashe.

It is there because of only one reason; a very good Palestinian friend of the founder of Italek Ltd., has asked him a long time ago to find a way to help him and some of his relatives to find work for them. So, they can support their families (they were facing more than 50% of unemployment).

Since they could not cross to the Israeli territories, the only solution was to establish a factory near their home (in Alfei Menashe).

So, he moved the factory from Petach Tikve (Israel) to the west bank (with all its costs) just to help them.

Today we have at our manufacturing plant, up to 30 Palestinians employees.

If you insist, it is not a problem to move back to Petach Tikva as long as you grantee us that you will supply them work and take care of all their needs.

We are doing our best to help them, something you do not do.

With all respect,

Italek Ltd.
